AFTERWORD

Thank you for purchasing SS Sisters volume 3! Since I took a bit of a break from serialization...

...there was some downtime between this and the previous volume... But despite that, you guys have continued to show your support! I thank you from the bottom of my heart!

From this volume onwards, it'll basically be rebooted as a new series, with depictions of SM club activities, and appearances of the new character Uozumi-Sensei. Furthermore...

...adding Chika's and Kenji's cohabitation into the mix, it'll be jam-packed with more and more highlights! You can... expect increasingly escalating plays! Please look forward to it!

If you want to see a character in a particular situation or anything like that, let me know lol.

Well then, I'll do my best with the Monthly Youngking serialization, so please continue to support me!!
